

LIGEO™

○ **SHAPE KITS**
2024/2025 CATALOG

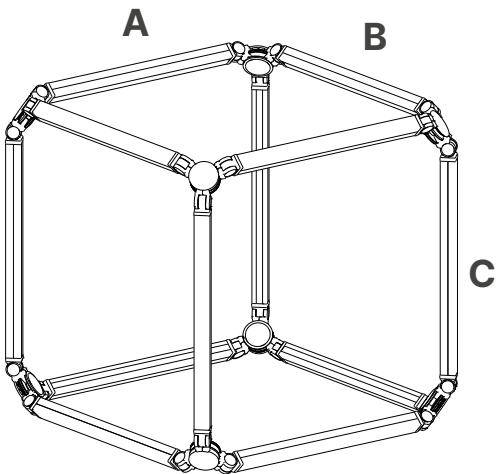

Description

A sleek, modern cube constructed entirely from high-quality LIGEO LED light bars. Each edge of the cube glows with a crisp, even light, creating a striking, geometric form that is both minimalist and futuristic. The design is both functional and artistic, offering a perfect blend of form and function.

Kit Contents

The cube kit comes with 12 light bars and all the accessories required to assemble and remotely power a symmetrical 6-sided cube. The kit includes all necessary equipment to create a suspended, direct mount, or free-standing cube.

DIAMOND

(Irregular Octahedron)

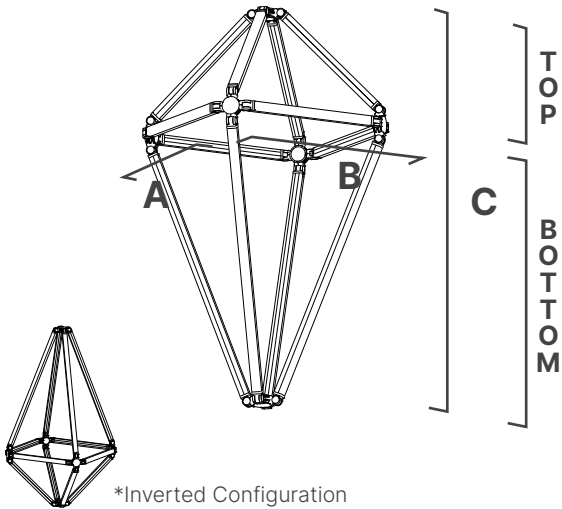

LIGEO™

Description

A stunning diamond-shaped structure crafted from high-quality LIGEO LED light bars. Each facet of the diamond is formed by sleek, glowing edges that converge at sharp, precise angles, creating an elegant, futuristic silhouette.

Kit Contents

The diamond kit comes with 12 light bars and all the accessories required to assemble and remotely power an irregular octahedron. The kit includes all necessary equipment to suspend or direct mount the fixture. With this kit you have the option to orient in a diamond or inverted shape. The lights can face inward or outward.

FRUSTUM

(Double Truncated Pyramid)

LIGEO™

Description

A unique geometric shape crafted from high-quality LIGEO LED light bars. The pyramid's sharp apexes have been removed, creating flat top and bottom illuminated surfaces, while the remaining LED bars outline its eight edges with a crisp, uniform glow. This double-truncated pyramid, blending modern design with cutting-edge lighting technology and adds a bold, architectural presence to any space.

Kit Contents

The frustum kit comes with 20 light bars and all the accessories required to assemble and remotely power a double truncated pyramid. The kit includes all necessary equipment to create a suspended, or direct mount frustum.

Ordering Information

Series	Shape		Size 1 (A)		Size 2 (B)		Fixture Color		Light Output		LED Color

RECTANGLE

(Cuboid)

LIGEO™

Description

A sleek, modern cuboid constructed entirely from high-quality LIGEO LED light bars. Each of its twelve edges glows with a uniform, crisp light, emphasizing the sleek, elongated form. The precise right angles and straight lines create a modern, minimalist structure, while the LED bars illuminate the length and depth of the rectangle.

Kit Contents

The rectangle kit comes with 12 light bars and all the accessories required to assemble and remotely power an asymmetrical 6-sided cuboid. The kit includes all necessary equipment to create a suspended, direct mount, or free-standing rectangle positioned horizontally or vertically.

TEARDROP

TEARDROP

(Triangular Bipyramid)

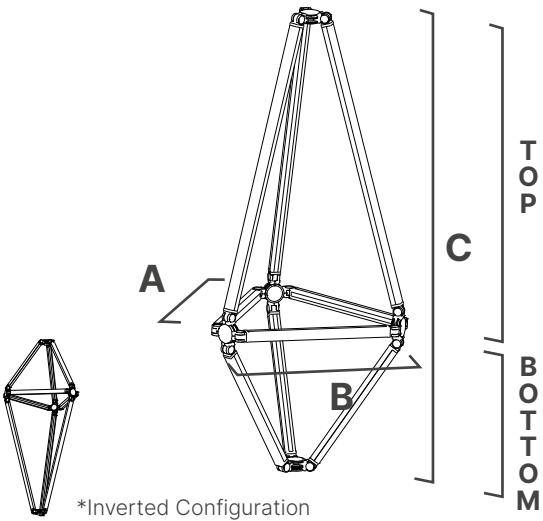

LIGEO™

Description

A unique, 3-sided teardrop-shaped structure formed from high-quality LIGEO LED light bars. The sharp geometric lines give the teardrop a modern, futuristic appeal. This striking design creates an eye-catching form that stands out in any environment.

Kit Contents

The teardrop kit comes with 9 light bars and all the accessories required to assemble and remotely power a triangular bipyramid. The kit includes all necessary equipment to suspend or direct mount the fixture. With this kit you have the option to orient in a teardrop or inverted shape. The lights can face inward or outward.
